

neat.board

A touch of elegance.

Neat Board is the complete Zoom Rooms package in a sleek all-in-one device. It's ideal for your open areas, huddles spaces and meeting rooms of up to ten people. It's immersive 65" 4k multi-touch screen, powerful audio system, and versatile wide-angle camera ensure you see and hear everything beautifully. The multi-touch screen enhances your Zoom Rooms experience beyond video meetings and wireless content sharing, by enabling annotations and whiteboarding using Neat Marker.

Neat Marker is our personalized stylus for sketching or writing without using your fingers to touch the screen. It magnetically attaches to a holder beneath Neat Board, which equally serves as cable management. Neat Marker is passive, so you don't have to set it up or charge it.

Simple set-up.

Engineered to provide everything you need in your Zoom Room today, Neat Board gives you the freedom and flexibility to collaborate however you want in the future. It comes with a table stand, a floor stand with optional wheels and wall mount are also available. It's easy to set up, just plug in the power cable, and you're good to go.

Just works.

Neat Board responds to your presence and automatically wakes up the moment you walk in the room. Just one tap and you can wirelessly share your screen, start a meeting or mark something up. The large multi-touch screen is perfect for taking notes, organizing thoughts and providing quick visual feedback, whether people are right there in the room or on video. Add Neat Pad as an additional controller and scheduling display to bring your Neat Zoom Rooms to the next level.

Managed & Supported by Zoom.

Neat removes complexities and threats thanks to our secure, single-purpose hardware devices. That means less stressing about passwords and patches. Our upcoming software update will empower you to upgrade everything from your Zoom account with just one click. Incorporating built-in sensors, Neat devices will soon provide valuable insights into how your meeting spaces get used, while also enabling you to regulate room temperature and monitor air quality, including humidity, CO2 and VOC. Plus, Zoom is your single point of contact for support.

Table stand is included with every Neat Board.
 Wall mount and Floor stand are optional.

Add Neat Pad as an additional controller and scheduling display.
